Dr. Kershaw's Hospice has helped many thousands of people from within Oldham and the surrounding area since it was founded in 1989.

The Hospice exists to enhance the quality of life for those suffering from cancer and other life threatening illnesses, and to support their families at what can be a very distressing time.

Our aim is to provide practical, physical and emotional support through the provision of highly specialised palliative care, which is completely free of charge to everyone in the area regardless of their circumstances.

The demand for our services is ever growing, and it is increasingly difficult to meet all requests for assistance, mainly due to financial pressures.

We are largely dependent upon voluntary donations. It cost's the Hospice £4,650 per day just to maintain our current level of care. Dr. Kershaw's Hospice Fundraising plays a vital part in helping us to achieve our targets by encouraging the local community, which benefits exclusively from our services, to support our work in bringing relief to patients and their families in Oldham and the surrounding areas.
